Spiritual Reflection - Training

Monday, November 2, 2020
8:00 PM

Councils / Districts who are interested in doing a Spiritual Reflection, but don't know where to start, this training is for you. The objective with training is to teach councils and districts to "Fish", and not just feed them. Conducting events for councils to participate in is great - but it just feeds them. The training is intended to empower councils and districts to be able to plan and conduct their own Spiritual Reflection events for:

- The council (district) Knights
- Catholic men or families in their parish.

The training will provide simple step by step instructions to begin conducting Spiritual Reflection events. This will help them crawl, then walk and then ultimately run. Councils will be trained on how to:

- Short and simple events lasting about 1 - 2 hours (crawl)
- Half day or full day events using existing materials (walk)
