Father McGivney Guild

As a new fraternal year is upon us and as the Fr. McGivney Guild chairman, I would like to get this program moving. As Connecticut is the Founders State, we need to set some goals with the first being to have every council officer in Connecticut become a member of the Guild. The second goal which will be extremely difficult will be to get every member in the council to become a member of the Guild. We will worry about the second goal later. We have a responsibility to try and become the first state to have a **100%** participation by its councils. Therefore, I am asking each District Deputy to bring this program to their council's attention. It is simple, here is what you need to do:

1. At each meeting let the membership know of the State Councils plan to achieve **100%** participant in the program.
2. Let them know it is a FREE program and all they have to do is fill out an enrollment document.
3. In order for the council to be credited each officer needs to become a member.
4. I would also suggest that each member in attendance complete the form as well
5. At the end of the meeting you collect the forms.
6. Then mail them to me so that I can record which councils are participating.
7. I will mail them to the supreme office.
8. If **all** of the officers are already members, then just submit their council number to me.
